

ABOUT

A driven Computer Engineering student at L.D. College of Engineering with hands-on experience in full-stack development, AI integration, and open-source ecosystems. Key contributions include developing the university's official admin panel using React.js and JavaScript, serving on the GDGoC-LDCE tech team, and participating in GSSoC '25 and OSCI '25. Demonstrated technical capability by co-developing *FloatChat*, an AI-powered conversational data interface using LangChain and Google Gemini for SIH 2025, backed by an AWS Certified Machine Learning – Specialty credential.

EDUCATION

L.D. College of Engineering

Bachelor of Engineering (B.E.), Computer Engineering

AWS Certified Machine Learning – Specialty

TECHNICAL SKILLS

Languages & Runtimes:	JavaScript, TypeScript, HTML/CSS, Node.js, Bun Runtime
Frameworks & Libraries:	React.js, React 19, Next.js, Express 5, LangChain
Databases & Cloud:	MySQL, PostgreSQL, Prisma, Supabase
Tools & Styling:	Git, Tailwind CSS, Chrome Extensions
Spoken Languages:	Gujarati (Native), Hindi (Professional), English (Professional)

EXPERIENCE

Frontend Developer

L.D. College of Engineering | Jan 2026 – Present

- Selected for the core development team to design, build, and maintain the college's official website admin panel.
- Developed responsive frontend interfaces using React.js to streamline institutional data management and campus operations.

Tech Team Member

GDG onCampus (Google Developer Groups) | Oct 2026 – Present

- Collaborate with fellow developers to manage technical initiatives and foster a thriving open-source and tech community on campus.

Open-Source Contributor

GSSoC '25 & OSCI '25 | 2025

- Contributed to various repositories during the GirlScript Summer of Code and Open Source Contest India.

PROJECTS

Perplexity Clone	TypeScript, React 19, Express 5, PostgreSQL, Supabase, Bun
- Developed a full-stack, AI-powered search platform utilizing Bun as the runtime and Prisma ORM for database structures. - Integrated OpenAI, OpenRouter, and Tavily Search APIs to deliver intelligent, real-time query results. - Implemented secure user authentication and management via Supabase.	
FloatChat (SIH 2025)	React.js, LangChain, Google Gemini API
- Co-developed an AI-powered conversational data interface for the Smart India Hackathon (SIH) 2025. - Leveraged LangChain and Gemini APIs to allow users to seamlessly interact with and query complex datasets through natural language.
